VOLUNTEER

Volunteers are what keeps Fællesskabet I København running. Our volunteers help maintain the fridges, collect food from donors, build the project and help us continue fighting food waste and food insecurity.

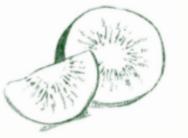

ABOUT

Fællesskabet I København or The Free Fridge Copenhagen is an open public community fridge. Free Fridge Copenhagen is a space for truly unconditional food sharing with no restrictions, requirements or time limitations. The fridge is open 24/7 for everyone regardless of their background. Donations to the fridge are welcome from anyone with surplus food who has an interest in helping people in need.

Our vision is to create a space for food sharing without conditions. The space is open 24/7 and can be used by anyone. It caters to those who have surplus food to give or those in need of a little extra.
